

CLCA Contracting Compliance ... Made Easy!

1.

A record for any anticipated contract requirement that Comprehensive Land Claims Agreement (CLCA) Contracting obligations are compliantly assessed and identified;

2.

Where delivery under any anticipated contract mechanism is determined to take place within the geographic boundaries of one (1) or more CLCA(s), a checklist to support Government of Canada Departments and Agencies in identifying their completion of identified CLCA Contracting obligations for each CLCA which applies to their activities;

3.

Where delivery under any anticipated contract mechanism is determined to take place within the geographic boundaries of one (1) or more CLCA(s), a preliminary record of data elements aimed at assisting Government of Canada Departments and Agencies in fulfilling their Contracting Policy Notice (CPN) 2008-4 reporting requirements, when reporting the contract award in the CLCA.net application.

Developed by SETASIDE SOLUTIONS *Aboriginal Joint Venture*, **C5 EXPERT**™ helps foster awareness and understanding of CLCA procurement obligations within government departments and agencies, to support implementation of complex legislative and policy requirements and best practices.

SETASIDE SOLUTIONS *Aboriginal Joint Venture* is a Canadian Aboriginal Company specializing in providing Procurement-related Advisory and Consulting services to Canadian Public Sector clients.

SETASIDE SOLUTIONS works exclusively in the field of government procurement, helping government managers to increase their awareness of and compliance with CLCAs, the Procurement Strategy for Aboriginal Business and other government contracting policies and requirements.

Each Comprehensive Land Claims Agreement contains unique Economic Measures to be implemented in public sector contract activities. How these Measures may be implemented in concurrence with government contracting policies and regulations can vary greatly depending on the nature of the procurement process undertaken, the type of contract to be established, and its geographic reach within one, some, or all CLCA areas.

C5 EXPERTTM is an expert system designed to help determine the compliance of Government organization procurement with legal and policy obligations when issuing contracts that may involve delivery locations within one or more Comprehensive Land Claims Agreement (CLCA) settlement areas.

The **C5 EXPERT**TM System was developed by SETASIDE SOLUTIONS Aboriginal Joint Venture in the course of our work to help government clients enhance the compliance of their procurement activities with the requirements of CLCAs. The **C5 EXPERT**TM System is currently licensed to the Department of Indian and Northern Affairs Canada for use by GoC officials.

The information provided within completed CLCA Contracting Compliance Checklist documents is intended for the use of Government officials. Accordingly, completed CLCA Contracting Compliance Checklist documents are only submitted to authorized Government officials.

For more information on this instance of **C5 EXPERT**TM please contact clca.net@ainc-inac.gc.ca

C5 EXPERTTM PROCESS

STEP 1

Government User completes the online **C5 EXPERT**TM Questionnaire

STEP 2

Questionnaire answers received by **SETASIDE SOLUTIONS** and processed within the rules-based **C5 EXPERT**TM System

STEP 3
